

Application Serial No. 10/521,824
Amendment dated October 16, 2006
Reply to Office Action of July 24, 2006

Amendments to the Specification:

The Examiner objected to the specification because of a lack of a description of drawings, Figs. 10a-10c. In this connection, the Examiner's attention is directed to page 9, line 19 of the specification wherein it is stated:

Fig. 10 is a top plan view of a mattress according to another embodiment of the invention, Figs. 10a-10c illustrating schematic enlargements of marked areas;

In the event that the Examiner is of the opinion that this reference to Figs. 10a-10c is improper, the Examiner is authorized to amend this description of Figs. 10a-10c to a form acceptable to the Examiner.

The Examiner also noted the use of the trademark "Velcro" and stated that this word should be capitalized wherever it appears and accompanied by the generic terminology. The undersigned attorney has reviewed the application and found no reference to "Velcro". In the event that the undersigned attorney inadvertently omitted noting a reference which does appear in the application, the Examiner is authorized to correct this reference to "Velcro" by Examiner's Amendment.
